

REFRIGERATORS & FREEZERS

Wansa Refrigerators & Freezers

Frost-Free Refrigeration

Wansa refrigerators use frost-free cooling, completely removing the need to defrost your freezer & saving time cleaning shelves & drawers. Frost-free technology offers quicker cooling time as well. This in turn retains freshness & allows food to be preserved for long periods.

Energy Efficient Design

All Wansa refrigerators & freezers are CFC-free. This means that they do not harm the ozone layer & do not contribute to greenhouse gas build-up. Updated cooling technology has allowed for more efficient, silent compressors that utilize less energy & create a pleasant kitchen environment.

- Wansa optimized refrigeration systems allow for energy savings, offering significant reductions in energy costs.
- The knock-down double door gasket is easily cleaned & renewed. This prevents cold air leakage while preserving freshness.
- Wansa refrigerators preserve your food & make sure that the freshness & nutrients last long.
- Wansa refrigerators come built in with useful bins & handy shelving options that help you maximize storage capacity. All this without making the refrigerator bulky.
- Our noise suppression systems ensure that Wansa refrigerators are quite. This means that Wansa refrigerators are seen & not heard.
- Our design teams research to make sure that user convenience is never compromised. This in turn results in a better experience when using Wansa refrigerators.
- Wansa refrigerators are environmentally friendly with CFC-free technology & high efficiency compressors.
